Chillisoft to Distribute CoSoSys Products

By [ChannelTimes Staff](#)

International Desk, Feb 25, 2009 11:01 hrs IST

CoSoSys, a developer of security solutions for USB devices, has appointed Chillisoft as distributor for New Zealand and Australia. Leveraging its strong presence in Asia and Europe, CoSoSys is now uniquely positioned to launch its endpoint security and Data Loss Prevention (DLP) solutions to customers in Australasia.

"We are delighted with this relationship and opportunity to expand our IT security range with products from CoSoSys. CoSoSys products meet needs ranging from personal Outlook Profile back up and synchronization for Home (SOHO) users through to comprehensive endpoint data security leakage via USB portable devices for business customers," said Geoff Cossey, Director, Chillisoft.

"In the coming weeks we will be educating our reseller channel and customers about the opportunities provided by the CoSoSys Endpoint Security and Carry it Easy products," said Cossey.
