Easy SlideShow Turns Your Favorite Pictures into a Movie

By Shutterbug Staff

▶ February 14, 2007 — CoSoSys has announced the release of Easy SlideShow.

Easy SlideShow lets you turn your favorite pictures, together with your favorite music, into a SlideShow, all with an intuitive user interface.

With Easy SlideShow, simply select your pictures, organize them and select transition effects. Choose your favorite music, and within minutes, your SlideShow is created.

The software can run on a PC, USB Flash Drive, U3 smart Drive, MP3 Player, SD Card or other portable storage media so you can immediately share your SlideShow with others. The SlideShow can be watched by anybody with Windows Media Player or any other Media Player that support the WMV format.

Easy SlideShow can be downloaded from <http://www.cososys.com> and from the U3 Software Central as a free 30-day trial. A full license can be purchased for US\$ 14.95 and it works with Windows Vista, Windows XP and Windows 2000 (SP4).

Easy SlideShow is multilingual and available in English, German and French.
