Carry it Easy +Plus Bio™

Biometric Protection for your portable data

Version: 2.1.8.4

Protect portable data with your unique fingerprint and keep it up to date on different PCs. Simply with a few clicks.
Carry it Easy +Plus Bio includes all vital tools you need for productivity and security when working away from home on different PCs.

On the move

If traveling on business or for pleasure, do not leave your vital data behind. When on the move make sure your data is protected and in sync with your latest work.

Carry it Easy +Plus Bio is fully portable; therefore no installation is needed on your PC.
The software can be used anywhere at anytime because it is always on your portable storage device.

Biometric Data Protection (Fingerprint)

Data on the biometric storage device can be accessed only with your unique fingerprint or a backup password. Configuring biometric protection was never easier.

Password Manager / SafeLogin for Internet Explorer

Accessing frequently used websites becomes faster and convenient. User Names and Passwords are saved on the portable storage device and automatically completed when visiting the registered websites.

Portable Microsoft Outlook® and Outlook Sync

Keep Outlook portable and in sync on multiple PCs.

Favorites / Bookmarks Sync for Internet Explorer & Firefox

Keep all your links with you and access them from any computer.

Data Compression

Ever wanted your portable storage device to have some extra megabytes? Carry it Easy +Plus Bio allows you to compress your data on-the-fly and save space on your drives.

No Trace Browsing with Internet Explorer & Firefox

Safely browse the internet on other PCs without leaving any traces that could reveal what you have viewed on the internet.

Desktop, Folders and My Documents synchronization

Instant synchronization of your documents, files and folders. With a couple of clicks you carry all the data files you need.

Portable Microsoft Outlook Express®

Manage your contacts and e-mails while on the move (you can use them easily on computers that have Outlook Express installed).

USB Drive Lost & Found™

Let the finder know who you are but do not let him see what is on your Flash Drive.
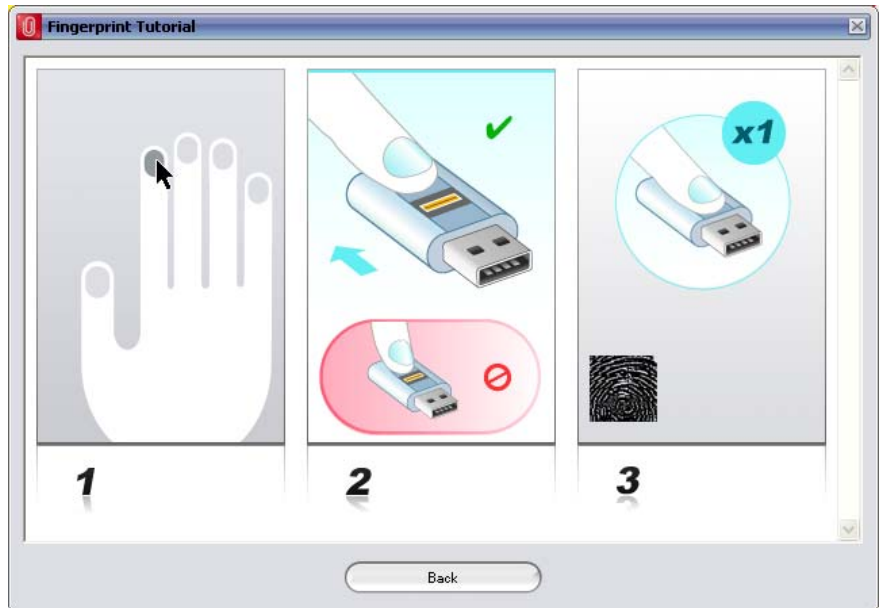

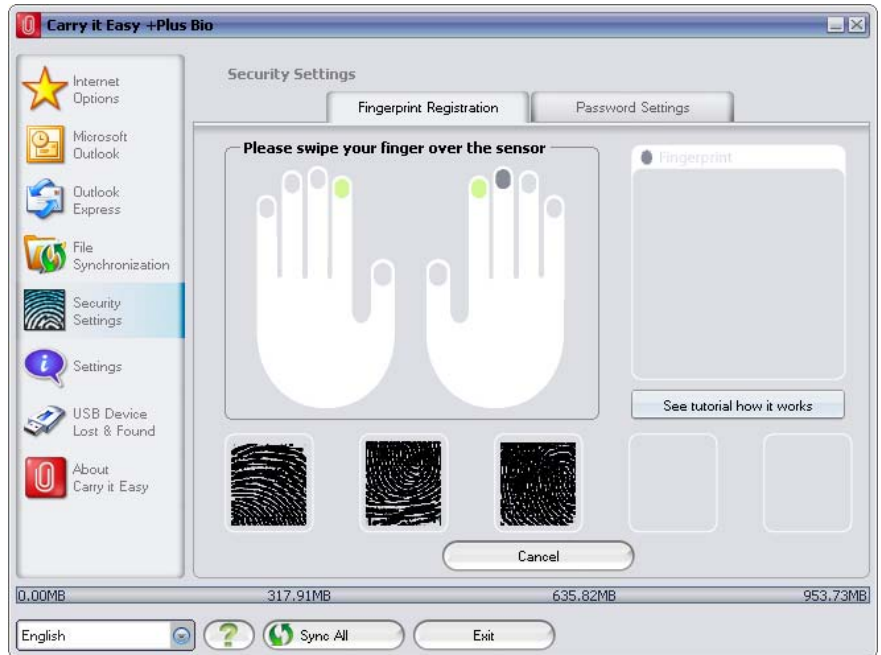

cososys

Carry it Easy +Plus Bio adds a rich set of popular features to any biometric portable storage device. Whether data compression to expand storage capacity or document synchronization.

SYSTEM REQUIREMENTS

- *Supported Biometric USB Storage Device*
- *Windows 7*
- *Windows Vista*
- *Windows XP (SP2)*
- *Windows 2000 (SP4)*
- *No Admin rights required*

Outlook users that work on different PCs can use Carry it Easy +Plus Bio to synchronize E-Mails, Contacts and their Calendars between different PCs.

Setting up the biometric protection does not take long. The intuitive user interface makes it simple and an animated tutorial shows the fingerprint enrollment step by step.

The Carry it Easy +Plus Bio user interface is available in 17 languages (English, Czech, Danish, Dutch, French, German, Italian, Japanese, Korean, Polish, Portuguese, Romanian, Russian, Spanish, simplified Chinese, traditional Chinese, and Thai).
