

# Easy SlideShow™

Turns your favorite pictures into a great SlideShow

Version: 1.0.4.1

Easy SlideShow turns your favorite pictures, and favorite music, into a great SlideShow, all with an intuitive user interface. Now everybody can make their own SlideShows and share them with family and friends.

## With Easy SlideShow

*simply select your pictures, organize them and select transition effects. Choose your favorite music, and within minutes, your SlideShow is created.*

*“Easy SlideShow takes your pictures and synchronizes them with transition effects and audio for top-shelf looking slide shows even your Grandmother could put together.”*

*GadgetReporter.com*

## Wizard based, User Interface

A wizard guides the user through all steps. Users can create SlideShows at ease.

## Movie like Transition Effects

The "slow zoom" effect turns pictures into SlideShows looking like movies. A selection of additional transition effect add movement and emotion to still pictures.

## Individual Music

Your individually music selection (MP3) amplifies your SlideShows expression.

## SlideShow Output Format: WMV

Your SlideShow can be played on any Windows PC in Windows Media Player. Windows Media Video (WMV) is the most used format.

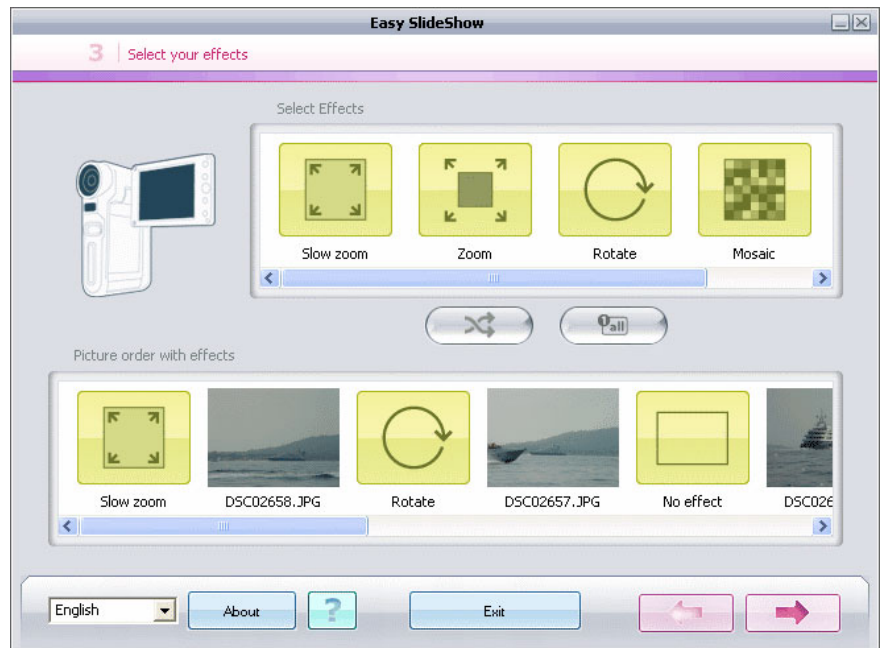

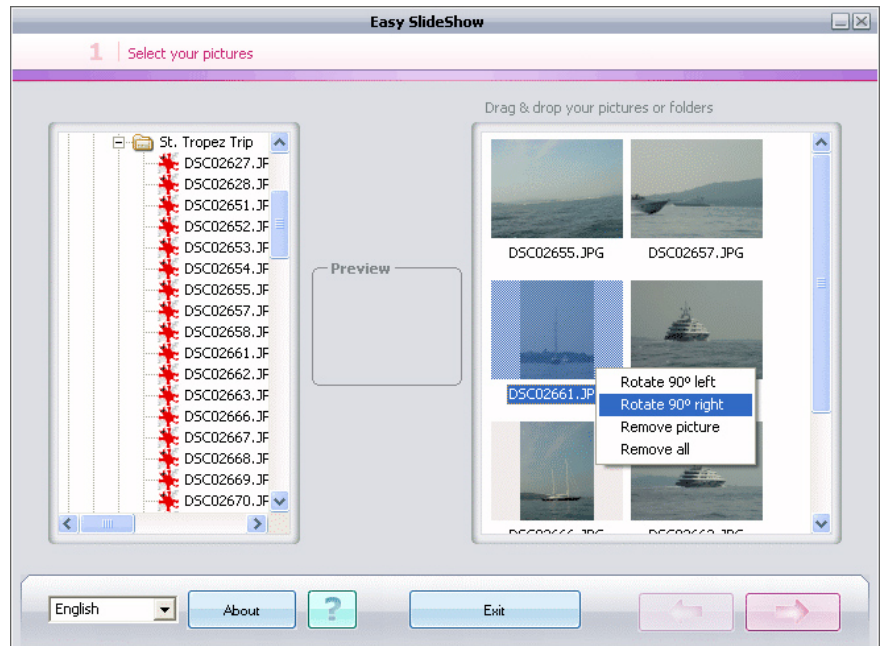

## Portability

You can carry the Easy SlideShow software with you on your portable storage device and create SlideShows together with your friends on their PC. The software does not require any installation process on the PC.

Use Easy SlideShow on your U3 smart Drive, an SD Card or any other portable storage device and immediately share your SlideShows with family and friends.

### SYSTEM REQUIREMENTS

- To make Easy Slideshow portable you can start it from a Portable Storage Device: USB Flash Drive, iPod, portable HDDs, MP3 Player, U3 Drive, SD Card, Flash Memory Card or other device
- Windows 7
