

Michael is the Senior VP of CoSoSys.

Before joining CoSoSys, Michael worked as a Software Architect at SIG (Swiss Industrial Group) and as Business Development Manager at Swissbit (Flash Memory Products).

Michael studied in Weingarten, Germany and holds an Engineering degree (Dipl.-Ing. FH) in Computer Science and Master of Business Administration (MBA).

Together with Roman Foeckl, he drives the vision and the growth of CoSoSys to offer excellent data security at an enterprise level, made affordable and usable to small and medium businesses.
