

Carry it Easy™

Stay mobile at ease

Version: 3.0.1.7

Whenever you go, wherever you go, you can easily carry your data with you. Simply with a few clicks. Carry it Easy includes the tools you need for productivity and security when working away from home on different PCs.

Turn your portable storage device into a great tool with Carry it Easy

It works with the device of your choice. Be it a

- *USB Flash Drive,*
- *U3 smart Drive,*
- *portable HDD,*
- *iPod or MP3 Player,*
- *Express Card,*
- *SD Card,*
- *or other portable storage device.*

Carry it Easy adds a rich set of popular features to any portable storage device.

Whether data compression to expand storage capacity or document synchronization.

128bit AES Data Encryption / Partitioning*

Worried about your data integrity? Or maybe you simply like your privacy? Carry it Easy protects your information with strong 128bit AES encryption.

Desktop, Folders and My Documents synchronization

Instant synchronization of your documents, files and folders. With a couple of clicks, you carry all the data files you need.

Favorites / Bookmarks Sync for Internet Explorer & Firefox

Keep all your links with you and access them from any computer.

Portable Microsoft Outlook Express / Windows Mail

Manage your contacts and e-mails while on the move. You can do this easily on PCs that have Outlook Express or Windows Mail.

Data Compression

Ever wanted your portable storage device to have some extra megabytes? Carry it Easy allows you to compress your data on-the-fly and save space on your drives.

No Trace Browsing with Internet Explorer & Firefox

Safely browse the internet on other PCs without leaving any traces that could reveal what you have viewed on the internet.

Sync All / Auto Sync

Set up your sync or schedule a backup and you can stop worrying about manually backing up your data to a portable storage device.

USB Drive Information

You are in control. It is your drive now. Find out all you might want to know about your USB Drive.

USB Drive Lost & Found™ / StuffBak Loss Protection (optional)

Let the finder know who you are but do not let him see what data is on your Flash Drive. Optionally you can also use the StuffBak Loss Protection Service that makes returning a lost device easy for the finder.

*Hardware based partitioning to protect data is available for supported hardware.

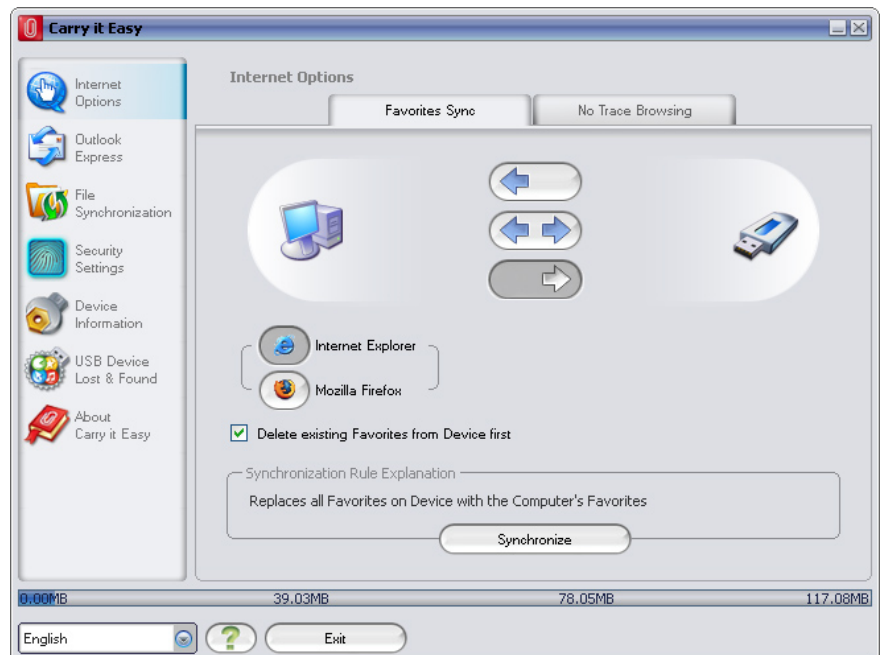

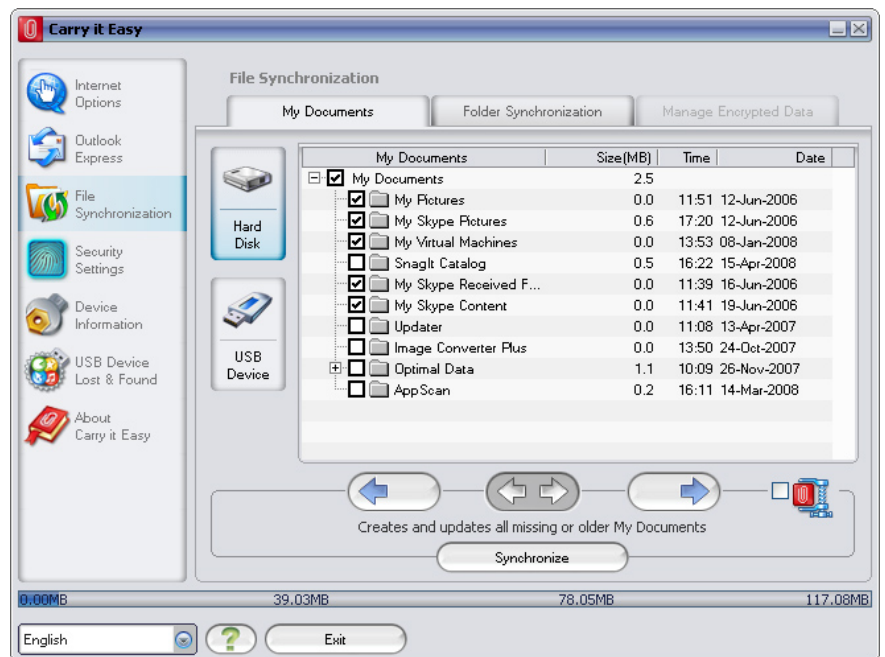

Carry it Easy is fully portable. No installation is necessary on your PC. The software can be used anywhere at anytime because it is always on your portable storage device.
